

Connecting to Hidden Networks

A network's name (or SSID) may be set as non-broadcasted or 'hidden', and will not appear on your player as an **Available Network**. To connect to hidden networks:

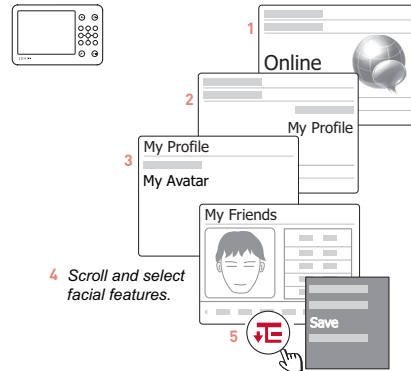

About Your Player's MAC Address

Some networks require your player's MAC address. To view your player's MAC address:

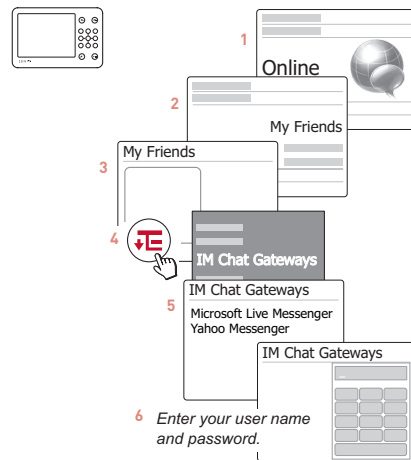

Chatting with Friends

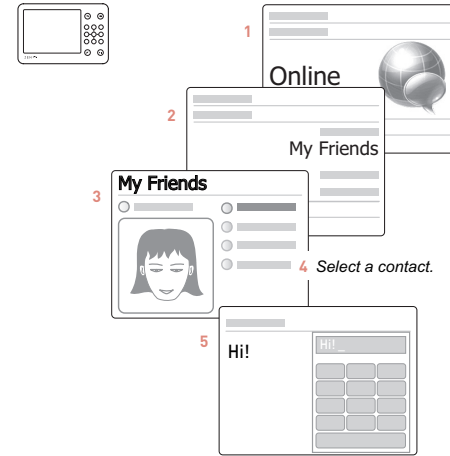

1. Customize your avatar.

2. Add your IM contacts.

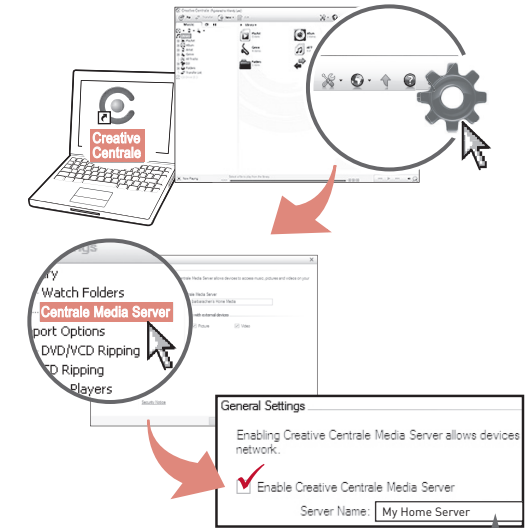

3. Sign-in and send messages.
