- . Do not engage in stressful or emotional conversations that may be bot not engage in artessarial or entournal confessariors that may be distracting. Make people you are talking with aware you are driving and suspend conversations that have the potential to divert your attention from the road.
- Use your device to call for help. Dial a local emergency number in the case of fire, traffic accident, or medical emerge
- Use your device to help others in emergencies. If you see an auto accident, a crime in progress, or a serious emergency where lives are in danger, call a local emergency number. Call roadside assistance or a special, non-emergency as
- number when necessary. If you see a broken-down vehicle posing no serious hazard, a broken traffic signal, a minor traffic accident where no one appears injured, or a vehicle you know to be stolen, call roadside assistance or another special, non-emergency number

Proper care and use of your mobile device

Keep your device dry

- Humidity and all types of liquids may damage device parts or electronic circuits
- Do not turn on your device if it is wet. If your device is already on, turn it off and remove the battery immediately (if the device will not turn off or you cannot remove the battery, leave it as-is). Then, dry the device with a towel and take it to a service centre.
- Liquids will change the colour of the label that indicates water damage inside the device. Water damage to your device can void your manufacturer's warranty.

Do not use or store your device in dusty, dirty areas Dust can cause your device to malfunction

Do not store your device on slopes

If your device falls, it can be damaged.

Do not store your device in hot or cold areas. Use your device at -20 °C to 50 °C

Your device can explode if left inside a closed vehicle, as the inside temperature can reach up to 80 °C.

SAR www.sar-tick.com

Safety precautions

This product meets applicable national SAR limits of 2.0 W/kg. The specific maximum SAR values can be found in the SAR information section of this manual.

When carrying the product or using it while worn on your body, either use an approved accessory such as a holster or otherwise maintain a distance of 1.5 cm from the body to ensure compliance with RF exposure requirements. Note that the product may be transmitting even if you are not making a phone call

Warning: Prevent electric shock, fire, and explosion

Do not use damaged power cords or plugs, or loose electrical

Do not touch the power cord with wet hands, or disconnect the charger by pulling on the cord

Do not bend or damage the power cord

Do not use your device while charging or touch your device with

Do not short-circuit the charger or the battery

Do not drop or cause an impact to the charger or the battery

Do not charge the battery with chargers that are not approved by

- · Do not expose your device to direct sunlight for extended periods of
- Store the battery at 0 °C to 40 °C.

Do not store your device with such metal objects as coins, keys and necklaces

- · Your device may become deformed or malfunction
- · If the battery terminals are in contact with metal objects, it may cause

Do not store your device near magnetic fields

- · Your device may malfunction or the battery may discharge from exposure to magnetic fields.
- Magnetic stripe cards, including credit cards, phone cards, passbooks and boarding passes, may be damaged by magnetic fields.
- Do not use carrying cases or accessories with magnetic closures or allow your device to come in contact with magnetic fields for extended

Do not store your device near or in heaters, microwaves, hot cooking equipment, or high pressure containers

· The battery may leak.

Comply with all safety warnings and regulations regarding mobile device usage while operating a

While driving, safely operating the vehicle is your first responsibility. Never use your mobile device while driving, if it is prohibited by law. For your safety and the safety of others, practice good common sense and remember the following tips:

- · Use a hands-free device.
- Get to know your device and its convenience features, such as speed dial and redial. These features help you reduce the time needed to place or receive calls on your mobile device.
- Position your device within easy reach. Be able to access your wireless device without removing your eyes from the road. If you receive an incoming call at an inconvenient time, let your voice mail answer it for you.
- Let the person you are speaking with know you are driving. Suspend calls in heavy traffic or hazardous weather conditions. Rain, sleet, snow, ice, and heavy traffic can be hazardous.
- Do not take notes or look up phone numbers. Jotting down a "to do" list or flipping through your address book takes atter your primary responsibility of driving safely.
- Dial sensibly and assess the traffic. Place calls when you are not moving or before pulling into traffic. Try to plan calls whe car will be stationary. If you need to make a call, dial only a few numbers, check the road and your mirrors, then continue.

· Do not disassemble or puncture the battery, as this can cause

Do not paint or put stickers on your device Paint and stickers can clog moving parts and prevent proper operation.

If you are allergic to paint or metal parts of the product, you may experience itching, eczema, or swelling of the skin. When this happens stop using the product and consult your physician

Broken glass or acrylic could cause injury to your hands and face. Take the device to a Samsung Service Centre to have it repaired.

When cleaning your device: Wipe your device or charger with a towel or an eraser.

- · Clean the terminals of the battery with a cotton ball or a towel.
- Do not use chemicals or detergents.
- Do not use the device if the screen is cracked or broken

Do not use the device for anything other than its intended use

Avoid disturbing others when using the device in public

Do not allow children to use your device

Your device is not a toy. Do not allow children to play with it as they could hurt themselves and others, damage the device, or make calls that increase your charges.

Install mobile devices and equipment with caution

- Ensure that any mobile devices or related equipment installed in your vehicle are securely mounted.
- Avoid placing your device and accessories near or in an air bag deployment area. Improperly installed wireless equipment can cause rious injury when air bags inflate rapidly.

Allow only qualified personnel to service your device

Allowing unqualified personnel to service your device may result in damage to your device and will void your manufacturer's warranty.

Handle SIM cards or memory cards with care

- Do not remove a card while the device is transferring or accessing information, as this could result in loss of data and/or damage to the
- Protect cards from strong shocks, static electricity, and electricity. noise from other devices Do not touch gold-coloured contacts or terminals with your fingers or metal objects. If dirty, wipe the card with a soft cloth.

Ensure access to emergency services

Emergency calls from your device may not be possible in some areas or circumstances. Before travelling in remote or undeveloped areas, plan an alternative method of contacting emergency services

Keep your personal and important data safe

- While using your device, be sure to back up important data Samsung is not responsible for data loss
- When disposing of your device, back up all data and then reset your device to prevent misuse of your personal information. Do not distribute copyright-protected material Do not distribute copyright-protected material that you have recorded

may violate copyright laws. The manufacturer is not liable for any lega

issues caused by the user's illegal use of copyrighted materia Specific Absorption Rate (SAR) certification

THIS DEVICE MEETS INTERNATIONAL GUIDELINES FOR EXPOSURE TO RADIO WAVES

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves (radio frequency electromagnetic fields) recommended by international guidelines. The guidelines were developed by an independent scientific organisation (ICNIRP) and include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The radio wave exposure guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2.0 W/kg.

Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The highest SAR values under the ICNIRP guidelines for this device model are:

Maximum SAR for this model and conditions under which it was

0.657 W/kg

0.582 W/kg

During use, the actual SAR values for this device are usually well beling use, the actual SAN values to this because, for purposes of system efficiency and to minimise interference on the network, the operating power of your mobile device is automatically decreased when full power is not needed for the call. The lower the power output of the device, the

A body-worn SAR test has been performed on this device with an approved accessory or at a separation distance of 1.5 cm. To meet RF exposure guidelines during body-worn operation, the device must be used with the approved accessory or positioned at least 1.5 cm away from the body. If you use an unapproved accessory, ensure that the accessory does not contain any metal components and that it positic the device at least 1.5 cm away from the body.

and Drug Administration have suggested that if people are concerned and want to reduce their exposure, they could use a hands-free accessory to keep the wireless device away from the head and body during use, or reduce the amount of time spent using the device. For more information, visit www.samsung.com/sar and search for you

Install the SIM card and battery Remove the back cover and insert the SIM card.

2. Insert the battery and replace the back cover.

Charge the battery

If the battery is completely discharged, you cannot turn on the device, even with the travel adapter connected. Allow a depleted battery to charge for a few minutes before you try to turn on the device

2. When charging is finished, unplug the travel adapter.

To AC power outlet

- · Do not remove the battery before removing the travel adapter. Doing this may cause damage to the phone
- To save energy, unplug the travel adapter when not in use. The travel adapter does not have a power switch so you must unplug the travel adapter from the outlet when not in use to avoid wasting power. The travel adapter should remain close to the socket when in use

Insert a memory card (optional)

Your phone accepts microSD™ or microSDHC™ memory cards up to 16 GB (depending on memory card manufacturer

- · Formatting the memory card on a PC may cause incompatibility with your phone. Format the memory card only on the phone.
- Frequent writing and erasing of data will shorten the lifespan of memory cards.
- 1. Remove the back cover.
- 2. Insert a memory card with the gold-coloured contacts facing down.

- 3. Push the memory card in the memory card slot until it locks in place.
- 4 Replace the back cover

Use the touch screen

Learn basic actions to use the touch screen

To avoid scratching the touch screen, do not use sharp tools.

- For the optimal use of the touch screen, remove the protection film before using your phone.
- Your touch screen has a layer that detects small electrical charges emitted by the human body. For best performance, tap the touch screen with your fingertip. The touch screen will not react to touches of sharp tools, such as a stylus or pen.

- · Tap: Touch once to select or launch a menu, option, or application
- Tap and hold: Tap an item and hold it for more than 2 seconds.
- Drag: Tap and drag your finger up, down, left, or right to move to items on lists
- · Drag and drop: Tap and hold your finger on an item, and then drag your finger to move the item

Turn your phone on or off

To turn your phone on.

- 1. Press and hold the Power key.
- 2. Enter your PIN and select **OK** (if necessary).
- 3. When the setup wizard opens, customise your phone as desired by following the screen.

If the battery remains fully discharged or removed from If the pattery remains runy discharges o. . . the device, the time and date will be reset.

To turn your phone off, repeat step 1 above

Access menus

To access your phone's menus.

- 1. In Idle mode, select Menu to access Menu mode
- 2. Scroll left or right to a main menu screen.
- 3. Select a menu or application.

4. Press the Back key to move up one level; Press [-] to return to Idle mode

- When you access a menu requiring the PIN2, you must enter the PIN2 supplied with the SIM card. For details, contact your service provider.
- Samsung is not responsible for any loss of passwords or private information or other damages caused by illegal software

Make a call

- 1. In Idle mode, select Keypad and enter an area code and a phone number
- 2. Press [] to dial the number.
- 3. To end the call, press [-].

Answer a call

- 1. When a call comes in, press [-].
- 2. To end the call, press [-].

Adjust the volume

To adjust the volume of the ringtone

- 1. In Menu mode, select **Settings** → **Sound profiles**
- 2. Select the profile you are using.

If you are using the silent profile, you are not allowed to adjust the volume of the ringtone

- 3. Select Volume → Call alert.
- 4. Drag the slider to adjust the volume level and select

To adjust the volume of the touch tone

In Idle mode, press the Volume key to adjust the volume.

To adjust the volume of voice during a call

While a call is in progress, press the Volume key to adjust

In noisy environments, you may have difficulty hearing the calls while using the speakerphone feature. For better audio performance, use the normal phone mode.

Change your ringtone

- 1. In Menu mode, select $\textbf{Settings} \rightarrow \textbf{Sound profiles}$
- 2. Select the profile you are using.

- If you are using the silent profile, you are not allowed to change the ringtone.
- 3. Select Voice call ringtone
- 4. Select a memory location (if necessary).
- 5. Select a ringtone and select Set.
 - To switch to another profile, select it from the list.

Call a recently dialled number

- 1. In Idle mode, press [-] to display a list of recent numbers.
- 2. Select ◀ or ▶ to a call type.
- 3 Scroll up or down to a number or name
- 4. Select the number or name to view details of the call or press [-] to dial the number.

Use widgets

Learn to use widgets on the idle screen.

- Some of your widgets connect to web services.
 Selecting a web-based widget may incur additional charges.
- · Available widgets may vary depending on your region or service provider

To open a widget

- 1. In Idle mode, scroll left or right to a panel of the idle screen.
- 2. Select a widget to activate on the idle screen.

To organise your widget

You can organise each panel of the idle screen with your favourite widgets.

- 1. In Idle mode, select <a>O at the top left of the screen to open the widget toolbar
- 2. Select a widget for each panel.

Enter text

To change the text input mode

- Select EN to change the input language.
- · Select T9 to switch between T9 and ABC modes. The dot turns green in T9 mode.
- · Select 123 or sym to switch to Number or Symbol mode.

T9 mode

- 1. Press appropriate virtual keys to enter an entire word.
- 2. When the word displays correctly, select uto insert a space. If the correct word does not display, select to select an alternate word

ABC mode

Press an appropriate virtual key until the character you want appears on the display

Number mode

Press an appropriate virtual key to enter a number.

Symbol mode

Press an appropriate virtual key to enter a symbol.

To use other features for text input

- To move the cursor, select and then the virtual navigation key.
- To delete characters one by one, select X. To delete words quickly, tap and hold .

- To enter punctuation marks, select 1 repeatedly
- To start a new line, select ←.
- To change case, select 1

Add a new contact

The memory location to save new contacts may be preset depending on your service provider. To change the memory location, in Menu mode, select **Contacts**→ **More** → **Settings** → **Save** new **contact** to → a memory location → Save.

- 1. In Idle mode, select **Keypad** and enter a phone number.
- 2. Select ♣ → Create contact → a memory location (if
- 3. Select a number type (if necessary). 4. Enter contact information.
- 5. Select Save to add the contact to memory.

Send and view messages To send a text or multimedia message

- 1 In Menu mode, select Messages → Create message
- 2. Select the recipient field → Enter manually 3. Enter a recipient number and select Done
- 4. Select the text input field

5. Enter your message text and select Done. See "Enter text. For sending as a text message, skip to step 7.

For attaching multimedia, continue with step 6.

- 6. Select Add media and add an item.
- 7. Select **Send** to send the message
- To view text or multimedia messages
- 1. In Menu mode, select Messages → Inbox 2. Select a text or multimedia message.

You can simulate an incoming call when you want to get out of meetings or unwanted conversations

To activate the fake call feature

Press and hold the Volume key down.

Make fake calls

To make a fake call

In Menu mode, select Settings \rightarrow Call \rightarrow Fake call \rightarrow Fake call hot key

Activate the mobile tracker

When someone inserts a new SIM or USIM card in your phone, the mobile tracker feature will automatically send the contact number to specified recipients to help you locate and recover your phone. To activate the mobile tracker,

- 1. In Menu mode, select Settings → Security → Mobile tracker
- 2. Enter your password and select OK

The first time you access Mobile tracker, you will be prompted to create and confirm a password

- 3 Select Mobile tracker to turn on the mobile tracker
- 4. Select Recipients → More → Contacts. You can also enter phone numbers including a country code (with +) in the recipient list. Skip to step 6.
- 5. Select contacts → Add. 6. When you are finished setting the recipients, select Save to save the recipients.
- 7. Select the sender input field

8. Enter a sender's name and select Done

9. Select Save → Accept.

Activate and send an SOS message

In an emergency, you can send SOS messages to your family or friends for help.

To activate the SOS message

- 1. In Menu mode, select $Messages \rightarrow Settings \rightarrow SOS$ $messages \rightarrow Sending\ options$
- 2. Select Sending SOS to activate the SOS message feature. 3. Select Recipients → Add recipients → Contacts.
- Skip to step 6. 4 Select Multiple
- 5. Select contacts → Add.
- 6. When you are finished setting the recipients, select Save to save the recipients

You can also enter phone numbers in the recipient list.

- 7. Select Repeat, set the number of times to repeat the SOS message, and select Save. 8. Press the Back key → Yes
- To send an SOS message

1. With the touch screen and the keys locked, press the Volume key four times to send an SOS message to preset numbers.

2. To exit SOS mode, press [--].
