Insert the Application and User's Manual CD to install the audio management software provided for the HipZip[™] player.

CAUTION! IomegaWare[™] software must be installed before you can transfer files to your HipZip[™] player.

Windows[®] 95 users should read the "USB Guidelines" section on the User's Manual CD before installing the lomegaWare[™] software.

NOTE: Illustrations on cover may not match actual contents.

Installing IomegaWare[™] Software

Insert the IomegaWare[™] software CD. Follow the instructions on screen to install the software.

Mac[®] Users: If the setup program does not start up automatically, start it manually by double clicking on the lomegaWare[™] software CD icon on your Mac desktop and double click on the lomegaWare install icon.

Windows[®] PC Users: If the setup program does not start up automatically, start it manually by double clicking on the lomegaWare[™] software CD icon in My Computer.

Connecting the HipZip[™] Player to Your Computer

Connecting the HipZip[™] Player to Your Computer

Connect the power supply into your HipZip[™] player and an electrical outlet.

You **must** charge the battery until the "Battery Full" icon (

NOTE: You must connect the power supply to use the player without initially charging the battery.

Insert a PocketZip[™] disk, and the HipZip[™] player is now ready to use.

- Open a PocketZip[™]* disk case by squeezing the top and bottom of the case together.
- ② Open the door on the top of the HipZip[™] player and insert a PocketZip[™] disk (label side up) until it clicks in place.
- ③ Eject a PocketZip[™] disk by opening the door on the top of the HipZip[™] player and gently pressing in on the disk until it clicks. The disk will pop out and you can remove it.

^{*}You can also use Iomega 4oMB Clik!" disks with your HipZip" Player

HipZip[™] Player Overview

Messages

Connected—displays when the player is properly connected to your computer and while downloading files.

Charging—displays while the battery is charging

Battery Full—displays when the battery is fully charged.

Insert a Disk—displays when you need to insert a disk.

Bad Connection—displays when the player is not properly connected to your computer. Check your USB cable connections.

Bad Disk—displays when the current disk is not readable; insert a different disk. (You may be able to reformat the disk using lomegaWare[™] software. See the User's Manual CD for more information on formatting.)

Check Disk—displays for three seconds when the current track contains too many errors to play; the player then skips to the next track. You may want to delete the damaged track and recopy it to the disk.

Transferring Audio Files to the HipZip[™] Player

Iomega has provided audio management software, MusicMatch Jukebox[™] Plus, that will help you create digital audio files from your existing CD collection, download audio files from the internet, organize the files into playlists, transfer the playlists to your HipZip[™] player, and more.

For simple instructions on using MusicMatch Jukebox[™], start MusicMatch and read the "Welcome Tips" located under the Help menu.

To transfer audio files from the computer to the HipZip^m player, follow the operating-system specific instructions on the following page:

NOTE: Audio files must be located on the root directory only (not in folders or subdirectories) of the HipZip[®] player. The HipZip player will not play audio files inside folders.

Windows[®] PC Users:

- Connect the player to your computer and insert a mini PocketZip[™] disk into the player.
- 2. Start MusicMatch Jukebox[™] (Click on **Start, Programs, MusicMatch Jukebox**.)
- 3. Select a playlist.
- 4. Click on **Options** in the main menu.
- 5. Select Send to Device.
- 6. Select **Download Playlist to the HipZip[™] Player**.

Mac[®] OS Users:

- Connect the player to your computer and insert a PocketZip[™] disk into the player.
- Using Finder, locate the audio file(s) (e.g., SongABC.mp3) you want to transfer. (If you used MusicMatch Jukebox[™] to create the file, look in the MusicMatch Jukebox\Music\ folder.)
- 3. Drag and drop the file(s) (not folders) to the HipZip[™] player icon on the desktop.
