Caution: Please read the battery use and safety text in the *Safety, Regulatory & Legal* guide provided with your phone.

Tip: To save battery life, see "Battery tips" on page 13.

Set up & go

Create or log into a MOTOBLUR account to get your contacts, email, messages, and status information, for all your accounts, all in one place, all the time. There's more in "Your MOTOBLUR account" on page 14. Registration is secure, and should only take a few minutes:

1 Turn on.

2 Select a language.

Tip: For product support, you can tap **Emergency Call** and dial 611.

3 Register or log in.
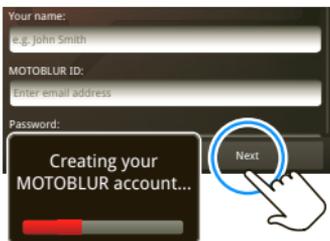

If you have not created a MOTOBLUR account, you'll need to register: Enter your name, your current email address (where MOTOBLUR can send account information), and a new MOTOBLUR account password.

Tip: Open your phone to type.

4 Add your accounts.

To add an account, tap it and enter the user name or email and password that you set up on that account.

Tip: For more, or to add accounts anytime, go to "Add accounts" on page 15.

After you sign in, your phone imports your contacts from your T-Mobile **Mobile Backup** account, or your SIM card if you haven't used **Mobile Backup**. To see your contacts, tap [ ] **Contacts**.

Tip: To manually import contacts from a SIM card, tap [ ] **Contacts**, then press Menu [ ] > **Settings** > **Import from SIM card**. Tap **OK** to confirm.

Turn it on & off

To turn on your phone, press Power [①] (on the right side).

To turn off your phone, press and hold Power [①], then tap **Power off** in the menu that opens.

Wi-Fi connect

If you want to use a Wi-Fi network for even faster Internet access, press Menu [⊞] > **Settings** > **Wireless controls** > **Wi-Fi settings**. Tap **Wi-Fi** to search for and connect to wireless networks. There's more in "Wi-Fi" on page 48.

Cool content & more

Browse and download thousands of the coolest apps on the planet from Android. On top of that, you get a full HTML browser, so you can surf in style.

Download new apps with "Android Market™" on page 43. Download music with "Get music online" on page 35. Your phone comes with a microSD memory card installed—you can load it up with photos, videos, and music from your computer using "Copy files to your card" on page 49.

Note: Do not remove your memory card while your phone is using it or writing files on it.

Security

Your contacts are backed-up on MOTOBLUR, so don't worry. Even if you lose your phone, MOTOBLUR can help you find it or wipe it. And when you get your next MOTOBLUR product, your stored info makes it a snap to set up with just a username and password.

Of course, it doesn't stop there. There are plenty of ways to protect your phone and your information, in "Security" on page 53.

Basics

quick access to the things you need most

Quick start: Home screen

The *home screen* gives you all your latest information in one place. It's what you see when you turn on the phone or press Home 🏠 from a menu. It's basically like this:

Status Indicators

Your Online Status
Tap to change your status.

Notifications
Flick this bar down to see details.

Widgets
Tap to open, or tap & hold to move or delete.

Flick left or right to open more panels of widgets.

Shortcuts
Tap to open.

Open the main menu.

Search

To search, use a Search widget (if you have one on your home screen), or open your phone and press Search 🔍.

Type, then tap the icon for a text search.

Tap the icon, then speak for a voice search.
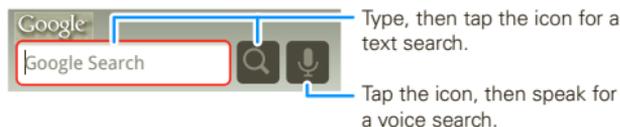

Tip: In your main menu or **Contacts**, you can open your phone (or press and hold Menu 🔳) to open a touchscreen keypad, then type an entry name to find it.

Phone status & notifications

At the top of the screen, icons on the left notify you about new messages or events (flick the bar down for details). Icons on the right tell you about phone status:

🔵	Bluetooth® active	▓ıll	network (full signal)
📡	GPS active	▓ıll	network (roaming)
📶	Wi-Fi active	**G**	GPRS (fast data)
⬇	downloading	**E**	EDGE (faster data)
⌇▯	vibrate	**3G**	3G (fastest data)

🔔	silent	✈	flight mode
🔇	mute call	🔋	battery (charging)
🔊	speakerphone active	🔋	battery (full charge)
🔄	Google™ sync active	⏰	alarm set

Tip: To see today's date, touch and hold the status indicators.

Set up & manage your home screen

On your home screen, *shortcuts* are icons that open your favorite apps, Web bookmarks, contacts, Gmail labels, or music playlists. *Widgets* show you news, weather, messages, and other updates.

Flick the home screen left or right to open other *panels* of shortcuts and widgets.

• To **open** something, tap it. Press Home ⌂ to return to the home screen.

  To **change** a widget's settings, open it and then press Menu 🔳 > **Setup**.

  You can find details about the settings for **Happenings** ("Add accounts" on page 15), **Messages** ("Set up messaging" on page 24), **Music** ("Music" on page 35), or **Social Status** ("Update your status" on page 15).

• To **add** something or change your **wallpaper**, touch and hold an empty spot until you see the **Add to Home screen** menu.

  Tip: You can add shortcuts to your favorite contacts and apps, or add a folder to organize your shortcuts.

• To **move** or **delete** something, touch and hold it until you feel a vibration, then drag it to another spot, another panel, or the trash at the bottom of the screen.

Touch tips

Here are some tips on how to navigate around your phone.

Tap

To choose an icon or option, *tap* it. Try it: In the home screen, tap the icon for 👤 **Contacts**.

Tap & hold

To open special options, *touch and hold* an icon or other item. Try it: In the home screen, tap ☎ **Contacts**, then touch and hold a contact to open options.
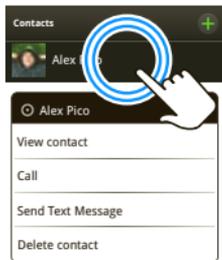

Drag

To scroll through a list or move slowly, *drag* across the touchscreen. Try it: In the home screen, tap ☎ **Contacts**, then drag your **Contacts** list up or down.

Tip: When you drag or flick a list, a *scroll bar* appears on the right. Drag the scroll bar to move the list to a letter A - Z.

Flick

To scroll through a list or move quickly, *flick* across the touchscreen (drag quickly and release).

Tip: When you flick a long list, tap the screen to stop it from scrolling.

Key tips

Menu, home, & back

Press Home 🏠 to close any menu or app and return to the home screen. Press and hold Home 🏠 to show the last few apps you used, then tap an app to open it. In the home screen, press Home 🏠 to open or close the main menu.
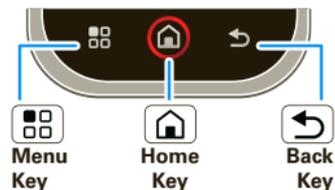

Press Menu 🔡 to open menu options, or Back ↰ to go back.

Battery tips

Your phone is like a small computer, giving you a lot of information and apps, at 3G speed, with a touch display! Depending on what you use, that can take a lot of power. So, if you want to save battery life between charges, you could reduce:

- recording or watching videos, listening to music, or taking pictures.
- widgets that stream information to your home screen, like news or weather ("Set up & manage your home screen" on page 7).
- unused online accounts that you registered with MOTOBLUR ("Remove accounts" on page 15).
- GPS, Wi-Fi, and Bluetooth® use: Press and hold Power ⓞ to open the Power key menu, then tap items to turn them off or on.
- Email updates: Tap ✉ **Messaging** > Menu 🔡 > **Messaging settings** > **Email** > **Get new email** > **Every hour**.
- Google™ app updates: Press Menu 🔡 > **Settings** > **Google Synchronization** > **Background data**.
- network speed: Press Menu 🔡 > **Settings** > **Wireless controls** > **Mobile networks** > **Select network** > **2G Only**.

- network searching: If you are out of coverage, to keep your phone from looking for networks, press and hold Power ⓞ to open the Power key menu, then tap **Airplane mode**.
- display brightness: Press Menu 🔡 > **Settings** > **Display & security** > **Brightness** > *(dimmer setting)*.
- display timeout delay: Press Menu 🔡 > **Settings** > **Display & security** > **Screen timeout** > *(shorter setting)*.

MOTOBLUR

Your MOTOBLUR account

The first time you turned on your phone, you registered for a MOTOBLUR account that manages your messages, contacts, and more ("Set up & go" on page 4). You can log into this account from a computer to upload contacts, reset your password, get help, or even locate your phone:
www.motorola.com/mymotoblur

What is MOTOBLUR?

MOTOROLA **CLIQ** with MOTOBLUR is the first phone with social skills.

Only MOTOBLUR syncs contacts, posts, feeds, messages, e-mails, photos and much more—from sources like Facebook, Twitter, MySpace, Gmail™, your work e-mail, Picasa, Photobucket—and automatically serves it up just the way you want it. No opening and closing apps and menus, it's all front and center on your home screen and integrated throughout the entire phone so you can communicate anyway you like.

Social networking

my life, your life

About social networking

Every friend-feed, status update, wall post, bulletin and photo upload from today's most popular social sites is automatically fed to the Happenings widget. Flick through your latest updates and fire back a response on CLIQ's slide-out QWERTY keyboard—no apps to open and no menus to dig through, just instant social gratification.

View accounts & update status

Note: Your network or other factors might affect the speed of widget updates.

View accounts

After you add a social networking account, you can see and respond to friends' updates with the **Happenings** widget on your home screen. If you don't see one, set one up in "Set up & manage your home screen" on page 7.

When you tap the **Happenings** widget and open an update, you can:

- tap **Message** at the bottom of the update to enter a message. You can tap the menu above the text box to change the message type.

- tap 🔵 to comment on a status update.
- touch and hold an uploaded picture to open options.
- tap the social network's icon to open its Web site and more features.

Update your status

After you add a social networking account, you can update and see your current status in a **Social Status** widget on your home screen.

To update your status, just tap your **Social Status** widget and enter text. If you have more than one account, you can use the pull-down menu to limit which accounts are updated. If you don't see a **Social Status** widget, flick your home screen left or right to check all panels.

To add a **Social Status** widget:

1 Touch and hold an empty spot on your home screen to open the **Add to home screen** menu.

2 Tap **Widgets** > **Social Status**. The widget appears in the empty spot, and will show your status the next time your phone updates from the network.

Add accounts

Note: You can add your **Facebook**, **MySpace**, **Twitter**, or other accounts to your phone. If you don't have accounts, you can visit their Web sites to set them up.

Find it: Home ⌂ > **Accounts** > **Add account**

To sign into your account, use the user name or email and password that you set up on that account (the same as on your computer).

When you sign into social networking accounts, you'll see your friends and contacts in your **Contacts** list, and your status and updates can appear in **Social Status** and **Happenings** widgets.

Twitter and MySpace messages will always appear as "read" on your phone, but your phone notifies you when you receive a new message. MySpace marks your messages as "read" online.

For email accounts, see "Set up messaging" on page 24.

Tip: To download updates faster, use "Wi-Fi" on page 48.

Remove accounts

Find it: Home ⌂ > **Accounts**

Touch and hold an account, then tap **Open account** to edit it, or tap **Delete account** to remove it (along with its contacts and messages).

Note: You can't remove your MOTOBLUR or Google™ accounts.

About Mobile Backup

Mobile Backup stores your contacts on a secure T-Mobile server, that you can access through MobileLife on my.t-mobile.com.

Mobile Backup gives you peace of mind, knowing your important information will not be lost if their phone is damaged, lost, or stolen, and allows you to avoid the hassle of manually re-entering contacts into a new phone if you upgrade.

Find it: Home ⌂ > 🔴 **Mobile Backup**

About MOTOBLUR

When you change one of your **Contacts**, your phone automatically updates your MOTOBLUR account online. Also, your phone updates your **Contacts** and MOTOBLUR account whenever you change a friend in your social networking accounts.

So, you don't have to do anything to synchronize your **Contacts** with your other accounts! MOTOBLUR takes care of it for you.

Access contacts

Only MOTOBLUR threads all of your contacts' information together in a whole new way. Friends photos, status and contact details are automatically updated as they change it on their profiles. In contacts view, MOTOBLUR lets you view all your latest

conversations, emails or texts with them, tweet them a message, comment on photos or even post on their Facebook wall.

Find it: ▣ **Contacts**

- To filter the contacts by group (**All**, **Facebook**, and so on) tap the filter name at the top.

  Tip: To change which account provides the pictures for your **Contacts**, from the home screen press Home ⌂ > **Accounts** > Menu ▣ > **Picture Source**.

- To change the list view, tap **History** (recently used), **A-Z** (list without status), or **Status** (list with status) at the bottom.

- To find a contact, just type the name.

  Tap a contact to open their details. To start a call or message, just tap their phone number or other info. You can tap **History**, **Info**, or **Happenings** at the bottom of the screen to see more.

  Tip: You can tap a contact's address to see it on a map. To add an address, press Menu ▣ > **Edit**.

Find it: [👤] **Contacts**

1 Tap the contact to open their details.

2 Press Menu [▦] > **Edit**. You can set a ringer, address, and other details that will be saved on your phone and your MOTOBLUR account.

Where are contacts edited or deleted? Your phone edits the contacts in its memory, and also updates your MOTOBLUR account. Your changes won't affect your SIM card.

Call contacts

Find it: [👤] **Contacts**

1 Tap the contact to open their details.

2 Tap their phone number to call them.

Send text messages to contacts

Find it: [👤] **Contacts**

1 Tap the contact to open their details.

2 Tap **Send Text Message** to open a message to them.

Link contacts

You might have two **Contacts** for the same person, maybe a Facebook friend who is also stored on your SIM card, or one friend with two email addresses. To combine these two contacts:

Find it: [👤] **Contacts**

Tap a contact to open it, then press Menu [▦] > **Link contact** and tap the second entry. Your MOTOBLUR account remembers this connection.

Import contacts from SIM

Note: You might have already done this during "Set up & go" on page 4.

If you need to import the contacts from your SIM card, tap [👤] **Contacts**, then press Menu [▦] > **Settings** > **Import from SIM card**.

My details

Find it: [👤] **Contacts** > Menu [▦] > **View my details**

To edit details, tap them.

Groups

You can put your **Contacts** into groups that you create (like "friends," "family," or "work"). Then, you can find contacts faster by showing one group at a time.

To create a group in your **Contacts**, press Menu 器 > **Add group**. Enter a group name, then tap **Add** to add members.

To show only one group in your **Contacts**, tap **Contacts** at the top of your screen and choose the group name.

Messaging

sometimes it's best 2 text, or IM, or email . . .

Quick start: Messaging

Find it: Home ⌂ > ✉ **Messaging** > **Universal Inbox**

Tip: To see more messages, flick or drag up.

Set up messaging

To **add** email accounts, press Home ⌂ > **Accounts** > **Add account**.

- **Corporate Sync** is for Microsoft® Exchange server work email accounts, described in "Synchronize with Microsoft® Office Outlook" on page 51.

- **Email** is for most personal email accounts. For account details, contact the account provider.

  Note: While you are using a Wi-Fi network, you cannot access **Yahoo Mail** accounts. You can still use your browser to see these accounts at mail.yahoo.com.

To **change** your settings, press Home 🏠 > ✉ **Messaging** > Menu 🔠, then tap:

- **Manage accounts** to change your user name or password (or server settings, for email).

- **Edit Universal Inbox** to choose which accounts show messages in the **Universal Inbox**.

- **Messaging Settings** to set the notification for each account type (along with other preferences, for email).

To get Gmail™ in your Messages widget and **Universal Inbox**, you'll need to add it as an **Email** account: Press Home 🏠 > ✉ **Messaging** > Menu 🔠, then tap **Manage accounts** > **Add account** > **Email** and enter your Gmail™ details. If you added your **Google** account too, turn off its email sync to avoid duplicate email notices: Press Home 🏠

> **Accounts**, tap your Google™ account, and tap the checkmark to turn off **Gmail**.

Tip: For social network accounts, see "Add accounts" on page 15.

Read messages

All your emails, social site messages, and texts are delivered straight to the universal inbox. Catch a glimpse of your latest messages through the live widget, or dive into any account you like, right from one spot.

Find it: Home 🏠 > ✉ **Messaging** > **Universal Inbox**

To open a message and all of its replies, tap it. Then, you can touch and hold a message or reply to forward it.

Note: **Universal Inbox** shows all of your messages together—text, email, and social networking messages. To show only one type of message, tap a message account type instead of **Universal Inbox**.

Send messages

Find it: Home 🏠 > ✉ **Messaging** > ➕

Messaging ➕

Choose a message type. Then, enter the recipient and message. In text messages

and emails, press Menu 🔡 to insert pictures or attach other files.

Tip: To forward a message, tap it to open the conversation, then touch and hold the message or reply you want to forward.

Reply to messages

Find it: Home 🏠 > ✉ **Messaging** > **Universal Inbox**

1 Tap the message to open it.

To forward a text message, touch and hold a message in the conversation, then tap **Forward message**.

For email, tap 📧 to choose a reply or forward option.

2 Enter your response in the text box at the bottom of the screen.

Add attachments

To send a picture or other file in a message, open a new message and press Menu 🔡 > **Insert...** or **Attach Files**.

When you open a message with an attachment, tap the file name to download it. Then, tap the name again to open it. Some file formats can be converted to HTML for faster viewing, and your phone will show a button that says **Get HTML version**.

Tip: To send and receive large attachments faster, use a Wi-Fi connection, in "Wi-Fi" on page 48.

IM

To send and receive instant messages, you can use an instant messaging app or your browser.

Find it: 🔵 **IM**

1 Tap the name of your IM provider.

2 Enter your screen name and password.

3 Tap **Sign in**.

   When you're signed in, you'll see a list of your chats and friends. Press Menu 🔡 to add contacts, create groups, and see other options.

   To sign out, press Menu 🔡 > **More** > **Sign out**.

If you don't see the name of your IM provider, you can use your Web browser. Press Home 🏠 > 🌐 **Browser** > Menu 🔡 > **Go**, then enter your provider's Web site. Once you're there, follow the link to sign in.

Note: Your IM options depend on your IM provider.

Audio postcards

Audio postcards are a great way to show (and tell) your whole crowd what you're up to—take a photo and add a personalized voice message before sending.

Find it: Home 🏠 > 🖼 **Audio postcard**

Latitude

Join Latitude

See where your friends and family are on Google Maps™. Plan to meet up, check that your parents got home safely, or just stay in touch.

Don't worry, your location is not shared unless you agree to it. You need to join Latitude, and then invite your friends to view your location or accept their invitations. When using Google Maps (in any mode except in Street View), press Menu (⊞) > **Join Latitude**. Read the privacy policy and if you agree with it, tap **Allow & share**.

Add and remove friends

Find it: Home (⌂) > ◆ **Google Maps** > Menu (⊞) > **Latitude**

To add friends:

1 Press Menu (⊞) > **Add friends**.

2 Tap **Select from Contacts** or **Add via email address**, then tap a contact and **Add friends**.

If your friends already use Latitude, they'll receive an email request and a notification. If they have not yet joined Latitude, they'll receive an email request that invites them to sign in to Latitude with their Google™ account.

To remove friends:

1 Press Menu (⊞) > **Latitude** to show your friend's list, then tap a friend in your list.

2 Tap **Remove**.

Share location

When you receive a request to share location details you can choose to:

- **Accept and share back**—see your friend's location, and your friend can see yours.

- **Accept, but hide my location**—see your friend's location, but they can't see yours.

- **Don't accept**—location information is not shared between you and your friend.

Hide location

Press Menu ⬚ > **Latitude** to show your friend's list. Tap your contact name, then press Menu ⬚ > **Privacy** > **Hide your location**.

Tip: To hide your location from all apps, from the home screen press and hold Power ⓪ to open the power menu. Then, turn off **GPS**.

Disable latitude

Press Menu ⬚ > **Latitude** to show your friend's list. Tap Menu ⬚ > **Privacy** > **Turn off Latitude**.

Install memory card

Your phone comes with a microSD memory card installed. "Assemble & charge" on page 3 shows you how to open your phone and install a different one.

Note: Do not remove your memory card while your phone is using it or writing files on it. You need the memory card installed for some features on your phone, like **Camera**.

Before you remove or format your memory card you need to unmount it. Press Menu 🔠 > **Settings** > **SD card & storage** > **Unmount SD card**.

To format your memory card, tap **Format SD card**.

Warning: All data on your memory card will be deleted.

View available memory

To see the available memory on your memory card, press Menu 🔠 > **Settings** > **SD card & storage**.

Copy files to your card

Note: This feature requires an optional accessory.

You can connect your phone to a computer and transfer your pictures, videos, music, ringtones, and

more, from your computer to your phone's memory card.

1 With a memory card inserted, and your phone showing the home screen, connect a Motorola micro USB data cable from your phone's micro USB port to a USB port on your computer. Your phone should show 🎤 in the status bar.

Note: Make sure to connect the phone to a high power USB port. Typically, these are located directly on your computer.

2 Tap **USB Drive** to connect your memory card to your PC. You can't use the files on your memory card while it is connected.

3 On your computer, use the "My Computer" window to find "Removable Disk".

4 Click on the "Removable Disk" icon to access the memory card.

5 Drag and drop your pictures, videos, music, ringtones, and more, to your phone folder. To help manage your files, you can create more folders in your phone folder.

6 When you're done, use the "Safely Remove Hardware" feature to finish.
